- Ovens

**OneClean** is an industrial strength super cleaner. The unique formula begins acting the moment it touches a surface. Enjoy effortless and hazard-free no-scrub cleaning using **OneClean**.

## **Quick-action formula**

Begins working the moment it touches the surface

## **Bare hands product**

Safe to use without extensive safety precautions

## **Non-corrosive**

Chemical formula removes grime and grease without scrubbing

## **Eco-friendly**

Non-toxic, non-acidic and biodegradable

## **Single solution concentrate**

Simplify your cleaning by using one product for ALL cleaning needs

## **Food safe**

Safe for use in kitchens and with cooking and food storage equipment

# Total Restaurant Cleaner

Replace all your conventional cleaning agents with OneClean. The powerful concentrated degreasing agent is non-toxic and biodegradable, ensuring a safe but effective cleaning solution.

The non-corrosive cleaner can be used on any surface without risk of abrasion, and without cumbersome personal protection equipment. Removes grease and grime with ease!

## Ovens

Full strength. Spray onto warm oven, wait 5-10 minutes, scrub with green pad, rinse with clean water.

## Grills

Full strength. Clean while still HOT, but turned off. Leave hood fan on. Spray on entire grill surface. Pour small amounts of water on the grill, while scrubbing with a pot brush, then rinse with water.

## Hoods, Walls, Restrooms, etc

Dilute 4 oz. OneClean plus water to fill a spray bottle, spray on, wipe or rinse off.

## Fryer Boil-out

Drain fry oil, pour 1 gallon of OneClean into the oil vat and fill with water to the "oil fill" line.

Wear gloves, apron and eyewear to avoid splash and steam. Boil for 1 hour, then drain. Scrub with green pad, and then rinse twice with water.

## Walkways

Mix 8 oz. OneClean per gallon of HOT water in a bucket. Pour onto walkway, scrub and rinse.

## Tile Floors

Industrial Kitchen Floors, Bathroom & Shower Tiles

Mix 1 oz. OneClean per gallon of water, damp mop, rinse with clean hot water.

## Concrete & Asphalt

Drive-Thru's, Parking Stalls, Parking Lots, Gas Station forecourts

Full strength for heavy soil. Mix with equal amounts of water for light soil, apply to dry pavement, do not wet surface first. Soak for at least 3 hours, rinse.

## General Degreasing

Walls, Trash Receptacles, Signs, Coolers, Shelves, Bars, Tables, Chairs, Pool Decks, Patio Furniture and more

HEAVY SOIL - full strength in spray bottle. LIGHT SOIL - 4 oz. OneClean plus water to fill a spray bottle.

Spray on, then wipe or rinse off.
